The Botanical Garden is located near the Brno city centre and was founded in 1922 by Professor Josef Podpěra. In 1995–96 during the reconstruction of the garden, new greenhouses were built. Today, we have a collection of about 4000 taxa: 1850 taxa in greenhouses and 2200 taxa outdoors.

The outdoor plant collection includes the special part Plant System (0.3 ha), where the big variety of species is shown by the particular plant families. Approximately 1500 species of vascular plants from 85 families are grown here.

Other parts of garden include samples of South Moravian vegetation and flora. You can see there for example vegetation of alluvian meadows and forests, oak and oak-hornbeam forests, non-forest xerothermophilous vegetation on limestone, serpentine or loess vegetation, submontane beech and spruce forests and sand dune flora. The area of this part is 0.4 ha.

In the other parts of the garden, you can admire trees and shrubs from the temperate zone of Japan and China, Caucasus and Siberia, or vegetation from the Balkans and the Mediterranean region. The rockeries contain montane and subalpine species from the high mountains of Europe and North America.

The greenhouses are a system of five tunnel-like structures with the largest one situated in the middle (max. height 10.5 m, area 1.200 m²). The greenhouses contain tropical collection of plants, together with *Victoria cruziana*, collection of ferns and cycads, subtropical collection with evergreen shrubs and trees, also with *Wollemia nobilis*, collections of Bromeliaceae, Cactaceae and other succulents.

The Botanical Garden is open daily from 9 a.m. to 5 p.m., during the winter to 3 p.m. The entrance fee is only for greenhouses.

GEOGRAPHIC AND CLIMATIC INFORMATION

latitude: N 49°12'15"
 longitude: E 16°35'50"
 altitude 240 m a. s. l.

Information on annual precipitation from 2002 to 2024 and mean monthly and annual temperature and rainfall from 1961 to 2022 can be found in enclosed climographs.

Rainfall in the garden from 2002 to 2024 in mm.

Brno Tuřany 1961-2022

225 m n. m., 501 mm, 9.4 °C

Mean monthly and annual temperature and rainfall from 1961 to 2022.

SEED COLLECTORS

Mgr. Magdaléna Chytrá (head), Ing. Jana Jandová (greenhouse gardener), Mgr. Deana Láníková, Ph.D. (botanist), Ing. Hana Ondrušková (landscape architect), Kristýna Tvrdá (gardener)

NOMENCLATURE

Kaplan Z., Danihelka J., Chrtěk J. jun., Kirschner J., Kubát K., Štech M. & Štěpánek J. [eds.] (2019): Klíč ke květeně České republiky [Key to the flora of the Czech Republic]. Ed. 2. – Academia, Praha.

Plants of the World online, Kew Science (<https://powo.science.kew.org/>)

CONDITIONS

In response to the Convention on Biological Diversity (Rio de Janeiro, 1992), the seeds are offered for use in the fields of research, education and development of public botanical gardens. The seeds, juveniles, adult plants or their genetic material is strictly forbidden to be used for commercial purposes. Every scientific publication resulting from the use of this material has to mention the Botanical Garden of Faculty of Science, Masaryk University in Brno in the acknowledgements.

The Botanical Garden is a member of the IPEN network, with code BRNU. Ordering seeds, you agree to comply with the above conditions. We are registered on CZ 003 Register of scientific institutions entitled to the exemption provided by Article VII, paragraph 6, of the Convention (www.cites.org/common/reg/si/si-CZ.pdf).

We send plant seeds to EU countries only.

DESIDERATA 2024–2025

BOTANICAL GARDEN

Please send your requests preferably to the e-mail address: zahrada@sci.muni.cz
You can also use the table below.

Please, limit your request to 20 items. Deadline is 1st May 2025.

Your address:

1.	11.
2.	12.
3.	13.
4.	14.
5.	15.
6.	16.
7.	17.
8.	18.
9.	19.
10.	20.

All seeds were collected in the Botanical Garden in 2024. The seeds are result of open pollination and may thus be hybridized.

G – plants cultivated in greenhouses

ACANTHACEAE

1. *Acanthus hungaricus* XX-0-BRNU-2018-00001

ACERACEAE

2. *Acer campestre* XX-0-BRNU-2017-06303
3. *Acer cappadocicum* subsp. *cappadocicum* XX-0-BRNU-2017-06311
4. *Acer japonicum* XX-0-BRNU-2017-06307
5. *Acer pseudoplatanus* XX-0-BRNU-2017-06320

AIZOACEAE

6. *Delosperma sutherlandii* XX-0-BRNU-2017-00142

ALISMATACEAE

7. *Alisma plantago-aquatica* XX-0-BRNU-2017-00200

AMARANTHACEAE

8. *Achyranthes aspera* XX-0-BRNU-2017-00217
9. *Amaranthus caudatus* XX-0-BRNU-2017-00230
10. *Amaranthus cruentus* XX-0-BRNU-2017-00225
11. *Amaranthus hypochondriacus* XX-0-BRNU-2017-00229
12. *Amaranthus retroflexus* XX-0-BRNU-2017-00232
13. *Amaranthus spinosus* XX-0-BRNU-2017-00233
14. *Atriplex hortensis* XX-0-BRNU-2017-00238
15. *Atriplex hortensis* 'Rubra' XX-0-BRNU-2017-00239
16. *Atriplex rosea* XX-0-BRNU-2017-00243
