

PUBLIC LECTURE EVALUATION

Masaryk University

Faculty	Faculty of Science
Procedure field	Geology
Applicant	doc. RNDr. Slavomír Nehyba, Dr.
Lecture date	09.03.2023
Lecture topic	Gilbertovské delty v depozičním záznamu
Persons present (number)	46
Designated evaluators (board members)	prof. RNDr. Jaromír Leichmann, Dr. rer. nat. (on-site) prof. Ing. Petr Skupien, Ph.D. (on-site) prof. RNDr. Stanislav Opluštil, Ph.D. (online)

[Evaluation text]

Conclusion

The lecture delivered by Slavomír Nehyba, entitled “Gilbertovské delty v depozičním záznamu” and delivered as part of the professor appointment procedure, **demonstrated** sufficient scholarly qualifications and pedagogical capabilities expected of applicants participating in a professor appointment procedure in the field of Geology.

The lecture took place in a hybrid form at 15.00 and lasted 1 hour. The lecture was primarily based on papers published by the candidate. He introduces some results dealing with Gilbert deltas from different sites and times. He summarized finally the general attributes of this kind of river deltas, and demonstrated its own contribution to the knowledge of this geologically important phenomena. The candidate answered 6 questions from the public after the presentation. The above-mentioned members of the board attended the lecture and provided its evaluation. All designated evaluators are familiar with the text of the evaluation and agree with it.
